

Manager EVO

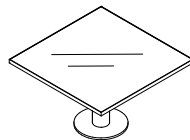

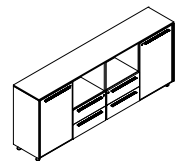

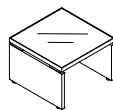

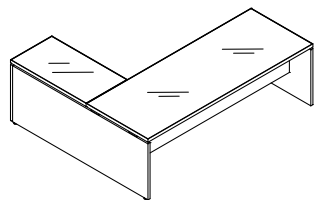

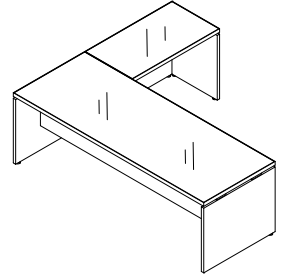

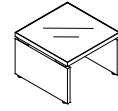

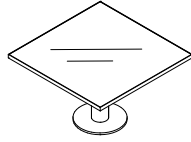

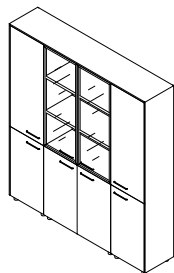

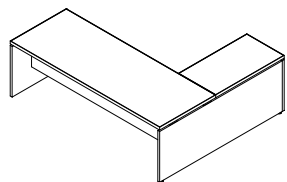

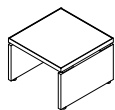

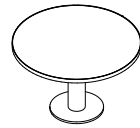

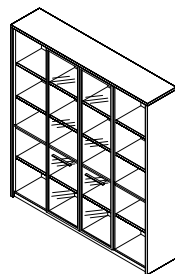

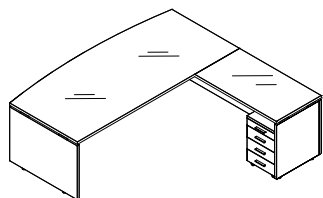

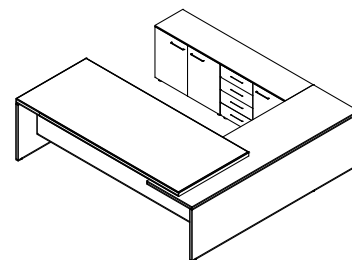

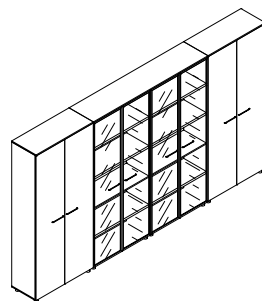

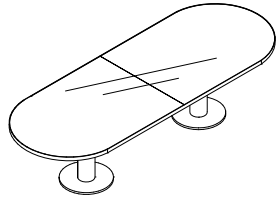

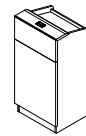

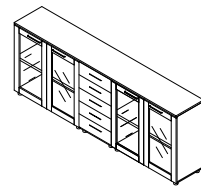

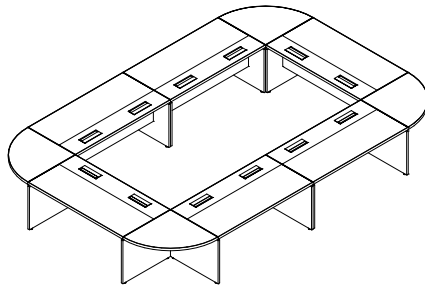

MANAGER EVO is a complete collection office furniture made up of desks, meeting tables, pedestals, service units and cabinets. The desks can be used both independently and in modular configurations

DESKS, EXTENSIONS AND MEETING TABLES

The desks are rectangular or with a front curved edge. They are available with a wooden base and with wooden or stained glass desk top surrounded with an extruded polished aluminium profile, 36mm-tall. – The meeting tables are available in rectangular, circular, oval or bullet shape, with metallic base supports. – They come with a single-piece top or with multi-tops, depending on the overall size of each table. – Wooden tops, sides and backs of desks and meeting tables are made in 30mm thick particleboard panels that are melamine faced in a wood pore finish or in single plain colour. They are also available in stained glass tops. Tops and sides are rounded off with a 2mm thick ABS or PVC edge trim of matching design and colour. The backs are finished with a 0,8 mm thick melamine edge trim, also matching the rest of the surface. – The glass tops are made of 5-6mm-thick stained glass insert on top of a 30mm-thick melamine back support and surrounded by an extruded polished aluminium profile. – The structural sides are formed of two panels which are joined by metal KD fitting. They are also equipped with a nylon tip to which a leveller foot is applied. – There are metal KD fittings on the sides and backs for joining to the tops. Desks front modesty panels consist of an 18mm thick particleboard panel which is melamine faced with a wood pore finish or in single plain colour, rounded off with a melamine edge trim 0,8 mm thick that matches the surface and can be connected to the structural back using fixing screws. – The circular meeting table has the same features on its top but with a metallic base made up of a black, silver or chrome finished circular base and column. – Desks and meeting tables are available in various colours.

COFFEE TABLES

The coffee tables have tops and sides in particleboard panels 30mm thick that are melamine faced with wood pore finishing or in single plain colour. The edge trim is 2mm ABS or PVC matching the surface. The back is made of a 30mm thick melamine faced particleboard panel with wood pore finishing and rounded off with a melamine edge trim 2mm thick in a hue matching the surface.

They are available in various colours.

PEDESTALS AND EXTENSIONS ON WHEELS

This structure is realized with 18mm thick particleboard panels that are melamine faced with a wood pore finish and rounded off with a melamine edge trim 0,8 mm thick matching the surface. – The canopy is made of a particleboard panel 30mm thick that is melamine faced with a wood pore or single plain colour finish and a 2mm thick ABS or PVC edge trim. – The base

rests on swivelling wheels. – The drawer structure is built of side panels in 12mm thick fibreboard coated in black or white PVC and of a fibre base 4mm thick. The guides extend with ordinary pull-out or self-closing guides whilst the filing cabinet drawers have total pull-out. – The front panels are made in 18mm particleboard panel with 2mm-thick ABS or PVC edging. It is made of melamine faced particleboard with a wood pore finish or single plain colour finish. Each front accommodates a handle chosen from a generous design collection and finishes. – Each drawer pedestal is equipped with a central lock. – The pedestals and extensions are available in various colours.

CABINETS

Cabinets are made up of the following elements: structural body, upper top, finishing sides and panels. They are available in two widths, 47cm and 94cm and in three heights: Low cabinets 88cmH, Medium cabinets 127cmH and High cabinets 207cmH. – The structural body is made in particleboard panels 18mm thick, melamine faced with a wood pore or single plain colour finish and are available in various colours. – The shelves are made of 30mm thick particleboard while the back is made of 18mm thick particleboard panel and melamine faced on both sides in the same colour as the body. The base is equipped with leveller feet. The whole structure is assembled with metal KD fittings. – The wooden doors are made in 18mm thick melamine faced particleboard panels available in various colours. – The edge trim is in ABS or PVC 2mm thick, matching the surface. – The glass doors is 6mm-thick frameless or in natural or polished extruded aluminum frame. – Handles can be chosen from a generous design collection and finishes while all door locks are optional and available upon request.

PACKAGING

All the components are disassembled and packed when supplied, and have paper triple type folding packaging, fillets for the perimetrical protection and for the fillings up, where needed. The corners are protected, where needed, through shock resistant edges protector. The packing closure occurs through sticky tape and welded nylon strap.

Pedestals are assembled, when supplied, protected through polystyrene angle bars on the sides and packed using thermo-retractable polyethylene leave when provided. The base rests on swivelling wheels.

The drawer structure is built of side panels in 12mm thick fibreboard coated in black PVC and of a fibre base 3mm thick. The guides extend with ordinary pull-out whilst the filing cabinet drawers have total pull-out.

The front panels are made in 18mm particleboard panel with 2mm-thick ABS edging. It is made of melamine faced particleboard with a wood pore finish or single plain colour finish. Each front accommodates a handle chosen from a generous design collection and finishes.

Each drawer pedestal is equipped with a central lock.

The pedestals and extensions are available in various colours.
